Summary

I enjoy:

- learning new stuff and solve problems.
- mentor and teach the stuff I know.
- work in a team that shares their knowledge and experience.
- work with mobile development and backend.
- work with Flutter, Swift, Kotlin, AWS, GCP, Firebase, and CI/CD.

I've worked with mobile development since 2017 and have experience in both native and cross-platform development. Developed against hardware on several occasions and have experience in developing backend services as well.

Work Experience

Company	Role	Tasks	Period
HYPH	**Mobile Engineer**	Flutter Native iOS Native Android AWS backend	**2023 - current**
Strafe	**Mobile Engineer**	Native iOS Native Android	**Consultant 2023**
OhCleo	**Mobile Engineer**	Flutter	**Consultant 2023**
Hemnet	**Mobile Engineer**	Native iOS	**Consultant 2022-2023**
Spiideo	**Mobile Engineer**	Native iOS	**Consultant 2022**
Walley	**Mobile Engineer**	Native iOS Native Android	**Consultant 2021**

Platforms

Frontend

```
// Flutter
// Native iOS
// Native Android
```

Backend

```
// AWS
// GCP
// Firebase
```

CI/CD

```
// GitHub Actions
// Bitrise
// Jenkins
```

Languages

//

```
// Dart
// Swift
// Kotlin
// Typescript
// Javascript
```

#

```
# Python
# Shell script
# Yaml
```

Tools

IDE

```
// VSCode
// Xcode
// Android Studio
```

Design

```
// Figma
// Sketch
// Zeplin
```

Version Control

```
// Git
// GitHub
// Bitbucket
// GitLab
// Gerrit
```

Project Management

```
// Jira
// Trello
```
